Capabilities Statement

Zombiebox International, Inc. is the WORLD'S FIRST, and only, patented portable noise control system company. Zombiebox truly believes that by reducing the world's excess noise we can promote a more peaceful and pleasant environment. Our products have been in the hands of customers all over the world, ranging from the frequent camper or mobile business owner, to the everyday homeowner, up to Federal and State Agencies, Military, and Labs. We are passionate about finding solutions that actually help anyone and at any time to reduce the unwanted noise.

Zombiebox International, Inc. is a small business that was established in 2016 primarily to reduce the noise of portable and standby generators. The idea quickly evolved into a more sophisticated solution for noise, weatherproofing, storage, security and safety for generators and additional equipment. Zombiebox manufacturers noise reducing boxes and barriers the reduce the noise 50-90%. Zombiebox International understand the largely known problem of noise intrusion and we have made it our mission to provide the best noise control products for a quieter and more peaceful world.

Core Competencies

- Manufacturing Noise Enclosures and Barriers
- Acoustic Wall Panels
- Secondary Exhaust and Muffler Systems

Differentiators

Patented engineering allows for a wide range of applications without the need for specialized or additional testing of ventilation, thermal, or acoustical performance.

The unique universal design lets anyone with equipment the ability to reduce the noise intensity 50-90% of generators and other machinery without inhibiting airflow or cooling requirements.

Unlike other noise barriers, Zombiebox Barriers are 100% portable therefore eliminates the needs for permits and can be set up or taken down in minutes
